

SIEMENS

Date: April 14, 2008
To: Siemens Distributors
From: Siemens Residential Product Management
Subject: **Redesign of Air-cooled Standby Generators and
“ST” line of Transfer Switches**

The Siemens Line of Air-cooled Standby Generators and “ST” line of Transfer Switches will be undergoing a complete redesign with new units arriving in late April 2008. Most models will have a slight price increase based on the changes listed below.

The changes to the generators include:

- More powerful engines with higher kW ratings
- A digital LCD controller screen
- A programmable weekly self test timer
- A running hour meter
- Remote annunciator capability (annunciator sold separately)
- A new, more aesthetically stylish enclosure

The changes to the “ST” Transfer switches include:

- Aluminum enclosures
- New Circuit configurations

The table below outlines new catalog numbers and list pricing as well as the units that will be phasing out. The existing line will continue to be available, limited through May 2008. The new part numbers will be added to your existing standing pricing agreements at the same discount as the previous units. New literature will be available for order through the Product Literature link in OCS and on Banta in late April, 2008.

Affected Part Numbers

New Siemens Catalog Number	Description	New List Price	Part Number being phased out	kW of Phased out unit	Old List Price	Price Change
Generators						
ASG008RBS	8 kW air cooled generator, steel	\$6,006	SG007RBS	7kW	\$5,879	2.2%
ASG010RBS	10 kW air cooled generator, steel	\$8,445	SG010RBS	10kW	\$8,365	1.0%
ASG014RBS	14 kW air cooled generator, steel	\$10,110	SG013RBS	13kW	\$10,021	0.9%
ASG017RBS	17 kW air cooled generator, steel	\$11,070	SG016RBS	16kW	\$11,026	0.4%
ASG017RBA	17 kW air cooled generator, aluminum	\$12,307	SG016RBA	16kW	\$12,257	0.4%
ASG020RBA	20 kW air cooled generator, aluminum	\$13,472	SG018RBA	18kW	\$12,672	6.3%

SIEMENS

New Siemens Catalog Number	Description	New List Price	Part Number being phased out	kW of Phased out unit	Old List Price	Price Change
Transfer Switches						
ST100R10C	10 Circuit 100amp load center T/S	\$1,246	ST100R10		\$1,325	-6.0%
ST100R14C	14 Circuit 100amp load center T/S	\$1,341	ST100R12		\$1,379	-2.8%
ST100R16C	16 Circuit 100amp load center T/S	\$1,436	ST100R16		\$1,429	0.5%

If you have any product feature questions, you can contact your local sales representative. Existing units will not be eligible for return after 4/30/2008.
